IRIS[®]
Certification

Industry standards for recognised Quality

EXPO 1520 – Scherbinka

27 August 2021

unife
THE EUROPEAN RAIL INDUSTRY

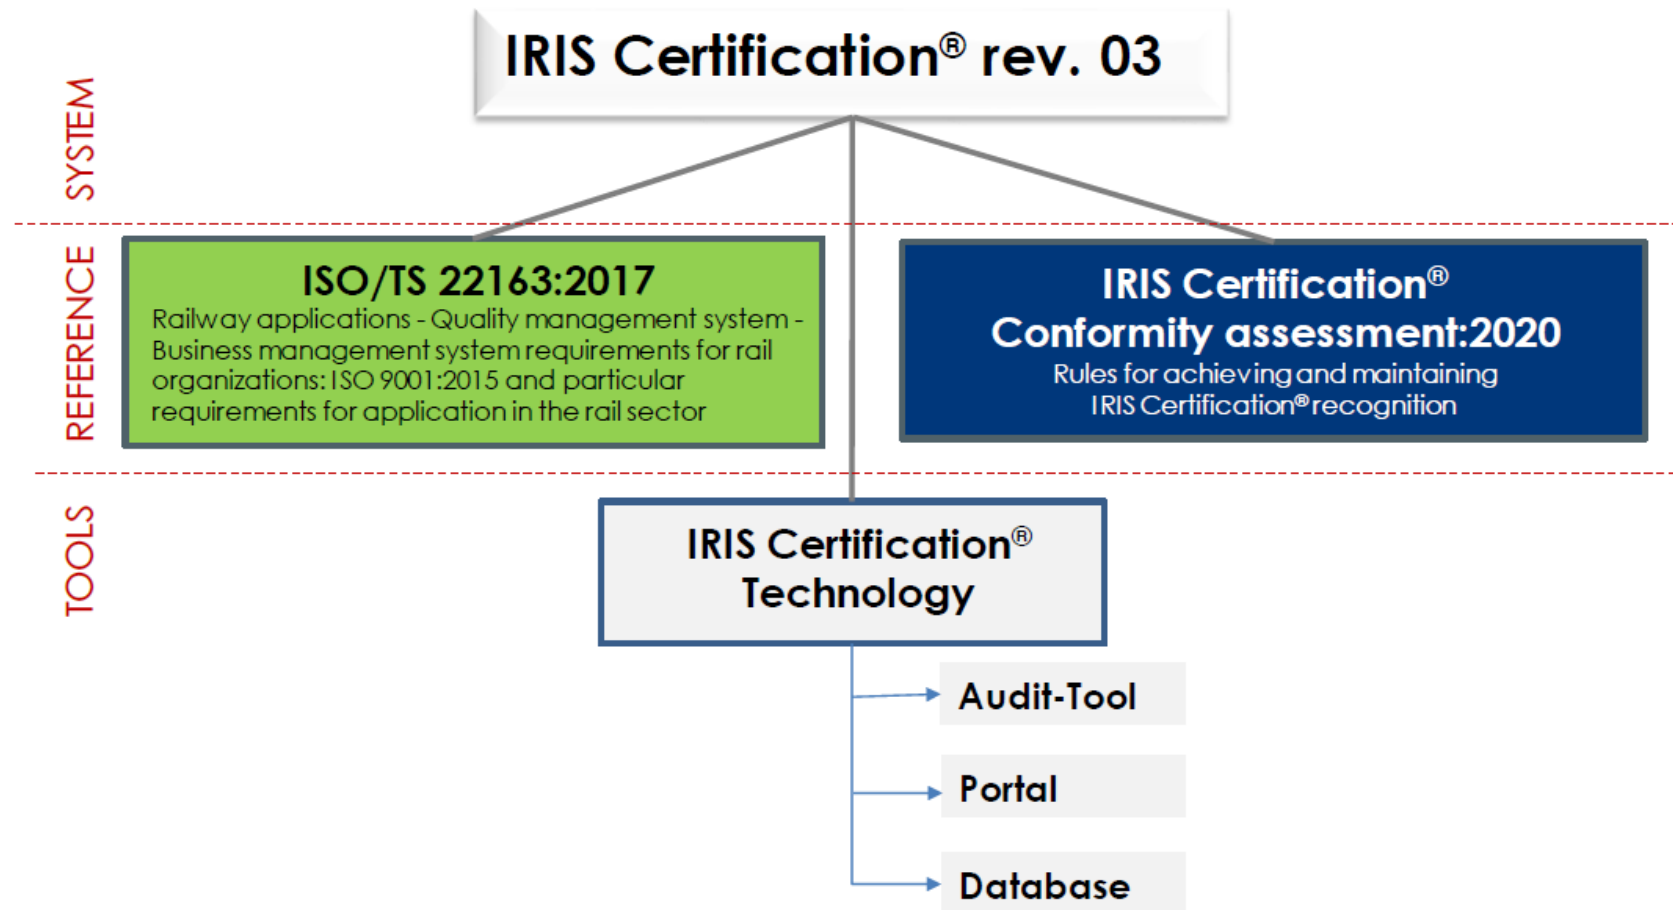

©2021 UNIFE. All rights reserved

What we need

- A recognised system based on
 - state of art requirements relevant to the rail business
 - clear application rules
 - strong assessment methodology
 - trustful conformity assessment

A system which has proven its success

The standard

ISO/TS 22163:2017

Railway applications - Quality management system -
Business management system requirements for rail
organizations: ISO 9001:2015 and particular requirements
for application in the rail sector

Contains:

- Last ISO 9001 management system
- Supplemental rail needs

Currently under revision:

- ISO 22163 to be published in Dec. 2022

The conformity assessment

IRIS Certification®

Conformity assessment:2020

Rules for achieving and maintaining
IRIS Certification® recognition

Contains:

- Assessment rules for
 - Enablers
 - Process performance
 - Customer perception
- Quality performance levels

Managed by:

- The rail sector

Advantages

- A worldwide system of evaluation
- Global supply chain assessed on the same basis
- Comparable results
- Definition, implementation and achievements are checked
- Maturity level system
- IT supported
- Data availability

Recognition

- 2200 IRIS certificates
- 83 Silver Performance levels

-  promotes and supports the scheme

- In Russia:
 - 138 certificates
 - 1 silver awarded in CIS

Conclusion

Let's work together to improve the global supply chain for the benefit of the rail sector.
